

# Asensus Surgical, Inc. Reports Operating and Financial Results for the First Quarter 2022

May 4, 2022

RESEARCH TRIANGLE PARK, N.C.--(BUSINESS WIRE)--May 4, 2022-- Asensus Surgical, Inc. (NYSE American: ASXC), a medical device company that is digitizing the interface between the surgeon and the patient to pioneer a new era of Performance-Guided Surgery™, today announced its operating and financial results for the first quarter 2022.

# **Recent Highlights**

- Over 650 procedures were performed globally during the quarter, representing growth of 31% over the prior year quarter
- First quarter revenue of \$1.1 million
- The Company had cash, cash equivalents, short-term and long-term investments, excluding restricted cash, of approximately \$118.5 million at March 31, 2022

"We are pleased with the continued double digit growth in Senhance utilization globally and the continued progress we have made toward the development of our technology portfolio, which was achieved in a challenging environment caused by COVID-19 outbreaks early in the quarter as well as the ongoing political instability in Eastern Europe. In particular, the rapidly growing case volume, in conjunction with the collection of surgical data, will provide procedure-specific surgical insights as we execute our vision for Performance-Guided Surgery," said Anthony Fernando, Asensus Surgical President and CEO. "As we look to the balance of 2022, we are well positioned to accelerate the adoption of Senhance through our market development initiatives, and continue to expect to achieve a number of key commercial and regulatory milestones during the back half of the year."

## **Upcoming 2022 Milestones**

For the full year 2022, the Company expects to initiate 10 - 12 new Senhance® Surgical Systems.

During the second half of 2022, the Company expects to achieve the following commercial and regulatory milestones:

- Full scale commercialization of articulating instruments globally
- File a 510(k) for FDA clearance of Senhance for pediatric indication
- Receive CE Mark for expanded machine vision capabilities for the Intelligent Surgical Unit™

## **Market Development**

# Procedure Volumes

In the first quarter, surgeons performed over 650 procedures utilizing the Senhance System, representing a 31% increase over the first quarter 2021. Compared to 2021, US-based procedure volumes increased 4%, EMEA increased 51%, and Asia increased 3%. These procedures included general surgery, gynecology, urology, bariatric, and colorectal surgical cases.

#### Clinical Validation

During the quarter, there were four peer-reviewed clinical papers published providing further support for the clinical utility of the Senhance System across a variety of surgical specialties.

# Clinical Registry (TRUST)

The Company is leveraging its growing body of real-world clinical data through the utilization of its TRUST clinical registry. We believe TRUST is the largest robotic-assisted laparoscopic registry in the industry, with data from more than 1,700 patients enrolled as of the end of the first quarter 2022. The registry includes a variety of procedural specialties, including abdominal, thoracic, urologic, and gynecological procedures performed at select sites across Europe. The Company expects to continue to grow this body of clinical data to support its commercial strategy as well as help to facilitate an increasing number of high-quality clinical publications demonstrating the value of Senhance and Performance-Guided Surgery.

### **Portfolio Expansion**

Performance-Guided Surgery (PGS)

As an organization, the Company's goal is to revolutionize the way surgery is performed. The Company is helping to unlock clinical intelligence and capabilities to reduce surgical variability and the complications associated with it. PGS builds upon the foundation of Digital Laparoscopy by adding machine vision, augmented intelligence, and deep learning capabilities, and will be built upon the digital library of data collected from surgeries performed using Senhance. The insights gained from these cases will help deliver on the promise of consistently superior surgery regardless of a surgeon's experience or skill level by guiding improved decision making, enriching collaboration, and enhancing predictability.

# Expanded Global ISU Machine Vision Capabilities

The Company continues to seek to expand the utilization and applicability of the Intelligent Surgical Unit<sup>TM</sup> or ISU<sup>TM</sup> to a global market, with the decision to pursue a CE Mark approval for expanded machine vision capabilities in Europe, which we expect to receive in late 2022.

# Articulating Instrument Clearance

The Company expects a full scale commercial launch of 5 mm Articulating Instruments in the second half of the year, which is currently in a pilot launch in the U.S. These instruments offer better access to difficult-to-reach areas of the anatomy by providing two additional degrees of freedom.

#### U.S. Pediatric Clearance

During the second half of 2022, the Company expects to submit its 510(k) application for pediatric clearance in the U.S. following strong early clinical utilization in Europe and increasing demand from U.S. surgeons. Senhance System's unique combination of the 3mm instrumentation with 5mm camera scope combined with haptic feedback make it a unique robotic assisted laparoscopic solution for pediatric surgeries.

#### **First Quarter Financial Results**

For the three months ended March 31, 2022, the Company reported revenue of \$1.1 million as compared to revenue of \$2.1 million in the three months ended March 31, 2021. Revenue in the first quarter of 2022 included \$0.4 million in lease revenue, \$0.4 million in instruments and accessories, and \$0.3 million in services.

For the three months ended March 31, 2022, total operating expenses were \$18.2 million, as compared to \$14.4 million, in the three months ended March 31, 2021.

For the three months ended March 31, 2022, net loss was \$19.1 million, or \$0.08 per share, as compared to a net loss of \$17.3 million, or \$0.08 per share, in the three months ended March 31, 2021.

Adjusted net loss is a non-GAAP financial measure. See the reconciliation of GAAP to Non-GAAP Measures below. For the three months ended March 31, 2022, the adjusted net loss was \$16.6 million, or \$0.07 per share, as compared to an adjusted net loss of \$12.2 million, or \$0.06 per share in the three months ended March 31, 2021, after adjusting for the following charges: amortization of intangible assets, change in fair value of contingent consideration, and change in fair value of warrant liabilities, all of which are non-cash charges.

# **Balance Sheet Updates**

The Company had cash, cash equivalents, short-term and long-term investments, excluding restricted cash of approximately \$118.5 million as of March 31, 2022.

### **Conference Call**

Asensus Surgical, Inc. will host a conference call on Wednesday, May 4, 2022, at 4:30 PM ET to discuss its first quarter 2022 operating and financial results. To listen to the conference call on your telephone, please dial 1-877-407-9716 for domestic callers and 1-201-493-6779 for international callers, and reference conference ID 13728750 approximately ten minutes prior to the start time. To access the live audio webcast or archived recording, use the following link <a href="https://ir.asensus.com/events-and-presentations">https://ir.asensus.com/events-and-presentations</a>. The replay will be available on the Company's website.

# About Asensus Surgical, Inc.

Asensus Surgical, Inc. is digitizing the interface between the surgeon and patient to pioneer a new era of Performance-Guided Surgery by unlocking clinical intelligence for surgeons to enable consistently superior outcomes and a new standard of surgery. This builds upon the foundation of Digital Laparoscopy with the Senhance Surgical System powered by the Intelligent Surgical Unit (ISU) to increase surgeon control and reduce surgical variability. With the addition of machine vision, augmented intelligence, and deep learning capabilities throughout the surgical experience, we intend to holistically address the current clinical, cognitive and economic shortcomings that drive surgical outcomes and value-based healthcare. Learn more about Performance-Guided Surgery and Digital Laparoscopy with the Senhance Surgical System here: <a href="www.senhance.com">www.senhance.com</a>. Now available for sale in the US, EU, Japan, Russia, and select other countries. # **Forward-Looking Statements**

This press release includes statements relating to the Senhance System and our 2022 first quarter results. These statements and other statements regarding our future plans and goals constitute "forward looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, and are intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. Such statements are subject to risks and uncertainties that are often difficult to predict, are beyond our control and which may cause results to differ materially from expectations and include whether we will be able to continue to progress our strategic plan in 2022, including achieving our commercial and regulatory milestones during the back half of the year; whether we can continue to drive the global adoption of Senhance through our market development and portfolio expansion efforts while at the same time focusing on the ongoing development of the platform's innovative digital capabilities to deliver on the promise of Performance-Guided Surgery; whether will initiate 10-12 new Senhance Surgical Systems placements in 2022; whether in the second half of 2022, we can achieve full scale commercialization of articulating instruments globally, file a 510(k) for FDA clearance of the Senhance Surgical System for pediatric indication and receive CE Mark for expanded machine vision capabilities for the ISU and whether we will be able to grow the body of clinical data within the TRUST registry. For a discussion of the risks and uncertainties associated with the Company's business, please review our filings with the Securities and Exchange Commission (SEC). You are cautioned not to

place undue reliance on these forward-looking statements, which are based on our expectations as of the date of this press release and speak only as of the origination date of this press release. We undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

Adjusted net loss per share attributable to common stockholders (Non-GAAP)	\$ (0.07)	\$ (0.06)

The non-GAAP financial measures for the three months ended March 31, 2022 and 2021, provide management with additional insight into the Company's results of operations from period to period without non-recurring and non-cash charges, and are calculated using the following adjustments:

- a) Intangible assets that are amortized consist of developed technology and purchased patent rights recorded at cost and amortized over 5 to 10 years.
- b) Contingent consideration in connection with the acquisition of the Senhance System in 2015 is recorded as a liability and is the estimate of the fair value of potential milestone payments related to business acquisitions. Contingent consideration is measured at fair value using a Monte-Carlo simulation utilizing significant unobservable inputs including the probability of achieving each of the potential milestones, revenue volatility, EURO to USD exchange rate, and an estimated discount rate associated with the risks of the expected cash flows attributable to the various milestones. Significant increases or decreases in any of the probabilities of success or changes in expected timelines for achievement of any of these milestones would result in a significantly higher or lower fair value of these milestones, respectively, and commensurate changes to the associated liability. The contingent consideration is revalued at each reporting period and changes in fair value are recognized in the consolidated statements of operations and comprehensive loss.
- c) The Company's Series B Warrants are measured at fair value using a simulation model which takes into account, as of the valuation date, factors including the current exercise price, the expected life of the warrant, the current price of the underlying stock, its expected volatility, holding cost and the risk-free interest rate for the term of the warrant. The warrant liability is revalued at each reporting period or upon exercise and changes in fair value are recognized in the consolidated statements of operations and comprehensive loss.
